PHILOSOPHY OF MINISTRY

My goal as a minister is to teach and equip students in their personal walk with Christ. As they go into their schools and throughout their everyday life, I desire to see them to lead a life that reflects Christ.

The number one priority in my call to the ministry is to lead students to a relationship with Christ. The second step is to teach students what a relationship with Christ looks like. The final step is to help students understand that Christ wants to use them and find out how they can be used by Christ.

Discipleship plays a major role in my ministry. I believe through discipleship you can show students what Christ looks like. This also allows students to ask questions that they may not ask in a group setting. I strongly believe in the model of discipleship and will use it to grow students in their personal walk with Christ.
